Spend a week making music, building friendships, and growing as an ensemble musician. Our summer string chamber music and piano ensembles workshops bring musicians together in small groups for an engaging, supportive, and high-energy learning experience. Students are carefully grouped by age, experience, and musical readiness to create balanced, motivating ensembles where every player can thrive. Through daily coachings, rehearsals, musicianship classes, and practice strategies, students develop confidence, collaboration skills, and artistic expression — all leading to a celebratory final performance at the Ryan Center for the Performing Arts.
